Declaration

Affiliated enterprises subject to the preparation of combined financial statements under the

Criteria Governing Preparation of Affiliation Reports, Consolidated Business Reports and

Consolidated Financial Statements of Affiliated Enterprises were identical to the affiliated

companies subject to the preparation of consolidated financial statements under the International

Financial Reporting Standards (IFRS) 10 for the year 2023 (from January 1 to December 31, 2023).

All mandatory disclosures of the combined financial statements have been disclosed in the

consolidated financial statements; therefore, no separate set of combined financial statements were

prepared.

Hereby declare

Stark Technology Inc.

Independent Auditors' Report

To stakeholders of Stark Technology Inc.:

Opinion

We have audited the consolidated balance sheet of Stark Technology Inc. and subsidiaries as at December 31, 2023 and 2022, and the consolidated statement of comprehensive income, consolidated statement of changes in equity, consolidated statement of cash flow, and the accompanying footnotes (including summary of key accounting policies) for the periods January 1 to December 31, 2023 and 2022.

We found that none of the material disclosures of the consolidated financial statements mentioned above exhibited any misstatement that did not conform with Regulations Governing the Preparation of Financial Reports by Securities Issuers and the version of IFRS, IAS, IFRIC and interpretations thereof approved and effected by the Financial Supervisory Commission, or compromised the fair view of the consolidated financial position of Stark Technology Inc. and subsidiaries as at December 31, 2023 and 2022, or the consolidated financial performance or consolidated cash flow for the periods January 1 to December 31, 2023 and 2022.

Basis for Opinion

We conducted our audits in accordance with Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants and the auditing principles. Our responsibilities as an auditor under the abovementioned standards are explained in the Responsibilities paragraph. All relevant personnel of the accounting firm have followed CPA code of ethics and maintained independence from Stark Technology Inc. and subsidiaries when performing their duties. We believe that the evidence obtained provide an adequate and appropriate basis for our opinion.

Key Audit Matters

Key audit matters are matters that we considered to be the most important, based on professional judgment, when auditing the 2023 consolidated financial statements of Stark Technology Inc. and subsidiaries. These issues have already been addressed when we audited and formed our opinions on the consolidated financial statements. Therefore, we do not provide opinions separately for individual matters.

Recognition of service income

Stark Technology Inc. and subsidiaries reported NT\$2,427,738 thousand of service income in 2023, representing 33% of total operating revenues and is considered material to the consolidated financial statements. This income is mostly the result of consultation and maintenance services rendered, and given the complexity of contract terms, income is recognized based on the extent of service rendered over the contract tenor. It is therefore necessary to exercise judgment over the scope of performance obligations and the timing of fulfillment, and we consider the amount of income recognized and the recognition approach taken to be key audit issues. Audit procedures that we have taken for the key audit issue mentioned above included (but were not limited to): evaluating the appropriateness of accounting policy on service income recognition, testing the effectiveness of the internal control system that the management has created for recognizing service income, analyzing gross profit margin by service category, executing transaction detail tests including sample examination of service contracts and invoices, and identifying performance obligations, cost-sharing arrangements, and timing of fulfillment for the contracts involved. These actions enabled us to determine whether transactions were recognized at the correct timing. We also reviewed the appropriateness of revenue disclosure mentioned in Notes (IV) and (VI) of the consolidated financial statements.

Responsibilities of the Management and Those Charged with Governance for the Consolidated Financial Statements

Responsibilities of the management were to prepare and ensure fair presentation of consolidated financial statements in accordance with "Regulations Governing the Preparation of Financial Reports by Securities Issuers" and the version of IFRS, IAS, IFRIC and interpretations thereof approved and effected by the Financial Supervisory Commission, and to exercise proper internal control practices that are relevant to the preparation of consolidated financial statements so that the consolidated financial statements are free of material misstatements, whether caused by fraud or error.

The management's responsibilities when preparing consolidated financial statements also involved: assessing the ability of Stark Technology Inc. and subsidiaries to operate, disclose information, and account for transactions as a going concern unless the management intends to liquidate or cease business operations, or is compelled to do so with no alternative solution.

The governance body of Stark Technology Inc. and subsidiaries (including the Audit Committee) is responsible for supervising the financial reporting process.

Auditors' Responsibilities for the Audit of Consolidated Financial Statements

The purposes of our audit were to obtain reasonable assurance of whether the consolidated financial statements were prone to material misstatements, whether caused by fraud or error, and to issue a report of our audit opinions. We considered assurance to be reasonable only if it is highly credible. However, audit tasks conducted in accordance with auditing principles do not necessarily guarantee detection of all material misstatements within the consolidated financial statements. Misstatements can arise from fraud or error. Misstatements are considered material if the individual amount or aggregate total is reasonably expected to affect economic decisions of the financial statement user.

When conducting audits in accordance with auditing principles, we exercised judgments and raised doubts as deemed professionally appropriate. We also performed the following tasks as an auditor:

- 1. Identifying and assessing risks of material misstatement within the consolidated financial statements that are attributed to fraud or error; designing and executing appropriate response measures for the identified risks; and obtaining adequate and appropriate audit evidence to support audit opinions. Fraud may involve conspiracy, forgery, intentional omission, untruthful declaration, or breach of internal control, and our audit did not find any material misstatement where the risk of fraud is greater than the risk of error.
- Obtaining necessary understanding on relevant internal controls and designing audit
 procedures that are appropriate under the prevailing circumstances, but without providing
 opinion on the effectiveness of internal control system of Stark Technology Inc. and
 subsidiaries.
- 3. Assessing the appropriateness of accounting policies adopted by the management, and the rationality of accounting estimates and related disclosures made.
- 4. Forming conclusions regarding the appropriateness of management's decision to account for the business as a going concern, and whether there are doubts or uncertainties about the ability of Stark Technology Inc. and subsidiaries to operate as a going concern, based on the audit evidence obtained. We are bound to remind consolidated financial statement users and make related disclosures if material uncertainties exist in regards to the aforementioned events or circumstances, and amend audit opinions when the disclosures are no longer appropriate. Our conclusions are based on the audit evidence obtained up to the date of audit report. However, future events or change of circumstances may still render Stark Technology Inc. and subsidiaries no longer capable of operating as a going concern.
- 5. Assessing the overall presentation, structure, and contents of the consolidated financial statements (including related footnotes), and whether certain transactions and events are presented appropriately in the financial statements.
- 6. Obtaining sufficient and appropriate audit evidence on financial information of entities within the group, and expressing opinions on consolidated financial statements. Our responsibilities as auditor are to instruct, supervise, and execute audits and form audit opinions on the group.

We have communicated with the governance body about the scope, timing, and significant findings (including significant defects identified in internal control) of our audit.

We have also provided the governance body with a declaration of independence stating that all relevant personnel of the accounting firm have complied with CPA code of ethics, and communicated with the governance body on all matters that may affect the auditor's independence (including protection measures).

We have identified the key audit matters after communicating with the governance body regarding the 2023 consolidated financial statements of Stark Technology Inc. and subsidiaries. These issues have been addressed in our audit report except for: 1. Certain topics that are prohibited by law from disclosing to the public; or 2. Under extreme circumstances, topics that we decide not to communicate in the audit report because of higher negative impacts they may cause than the benefits they bring to public interest.

Others

Stark Technology Inc. has prepared parent company only financial statements for the years ended December 31, 2023 and 2022, to which we issued an independent auditors' report with unqualified opinion.

Stark Technology Inc. and Subsidiaries Notes to Consolidated Financial Statements For the Years Ended December 31, 2023 and 2022 (All amounts in NTD thousands unless otherwise specified)

(I). Organization and Operations

Stark Technology Inc. (the "Company") was incorporated on March 24, 1993. Its main business activities include distribution and maintenance of computers and peripherals; research, design, development, and sale of computer software/hardware, computer system design, and import/export trade for the Company's own products.

Shares of the Company have been listed for trading on "Taiwan Stock Exchange Corporation" since September 2001. The Company's place of registration and main business location is 12F-1, No. 83, Section 2, Dongda Road, Hsinchu City.

(II). Financial Statement Approval Date and Procedures

Consolidated financial statements of the Company and subsidiaries (collectively referred to as the "Group") for the years ended December 31, 2023 and 2022 were approved by the board of directors on February 29, 2024.

(III). Application of new standards, amendments, and interpretations

1. Change of accounting policy resulting from first-time adoption of International Financial Reporting Standards (IFRS)

The Group has adopted the version of IFRS, IAS, IFRIC and interpretations thereof that approved and effected by Financial Supervisory Commission (FSC) for accounting periods on and after January 1, 2023. First-time adoption of the new standards and amendments has had no material impact on the Group.

2. The Group has not adopted the following IASB-announced and FSC-approved new standards, amendments, guidance, and interpretation as of the release date of the financial reports:

| Itam | | Effective Date by |
|----------|---------------------------------------------------------|--------------------------|
| Item No. | New Standards, Interpretations and Amendments | International Accounting |
| NO. | | Standards Board |
| 1 | Amendments to IAS 1 - "Classification of Liabilities as | January 1, 2024 |
| | Current or Non-Current" | |
| 2 | Amendments to IFRS 16 - "Lease Liability in a Sale and | January 1, 2024 |
| | Leaseback" | |
| 3 | Amendments to IAS 1 - "Non-Current Liabilities in | January 1, 2024 |
| | Contracts" | |
| 4 | Amendments to IAS 7 and IFRS 7 - "Supplier Finance | January 1, 2024 |
| | Arrangements" | |

(1) Amendments to IAS 1 - "Classification of Liabilities as Current or Non-current"

This amendment concerns the classification of liabilities between current and non-current, as stated in paragraphs 69-76 of IAS 1 - "Presentation of Financial Statements."

(2) Amendments to IFRS 16 - "Lease Liability in a Sale and Leaseback"

This amendment for IFRS 16 – "Leases" is intended to ensure the consistency of application of the standard by adding subsequent measurement requirements for a seller-lessee in a sale and leaseback transactions.

(3) Amendments to IAS 1 - "Non-Current Liabilities in Contracts"

This amendment aims to enhance the information provided by the entity regarding long-term debt contracts. The disclosure of contractual obligations that are required to be met within twelve months after the reporting period does not affect the classification of such liabilities as current or non-current at the end of the reporting period.

(4) Amendments to IAS 7 and IFRS 7 – "Supplier Finance Arrangements"

In addition to enhancing the explanation of supplier financing arrangements, this amendment also introduces additional disclosures related to supplier financing arrangements.

The aforementioned new, revised and amended standards or interpretations are issued by IASB and endorsed by FSC to take effect for annual periods beginning on January 1, 2024. Upon assessment, the adoption of newly issued or revised standards and interpretations does not have any material impact on the Group.

3. As of the publication date of financial statements, the Group had not adopted the following IASB-announced new standards, amendments, guidance, and interpretation that were not approved by FSC:

| | | Effective Date by |
|------|-----------------------------------------------------------|----------------------|
| Item | New Standards, Interpretations and Amendments | International |
| No. | New Standards, interpretations and Amendments | Accounting Standards |
| | | Board |
| 1 | Amendments to IFRS 10 - "Consolidated Financial | To be determined by |
| | Statements" and IAS 28 - "Investments in Associates and | International |
| | Joint Ventures" regarding "Sale or Contribution of Assets | Accounting Standards |
| | Between an Investor and Its Associate or Joint Venture" | Board |
| 2 | IFRS 17 - "Insurance Contracts" | January 1, 2023 |
| 3 | Amendments to IAS 21 - "Lack of Exchangeability" | January 1, 2025 |

(1) Amendments to IFRS 10 - "Consolidated Financial Statements" and IAS 28 - "Investments in Associates and Joint Ventures" regarding "Sale or Contribution of Assets Between an Investor and Its Associate or Joint Venture"

This amendment is intended to address the inconsistent treatments between IFRS 10 - "Consolidated Financial Statements" and IAS 28 - "Investments in Associates and Joint Ventures" in cases where a company loses control in a subsidiary when ownership of that subsidiary is offered as consideration for investing into an associated company or joint venture. IAS 28 states that, when a company contributes non-monetary asset in exchange for equity interest in an associated company or joint venture, the transaction shall be treated as a downstream transaction and any share of gains or losses that arises as a result is eliminated. IFRS 10, however, requires the entirety of gains or losses to be recognized when a company loses control in a subsidiary. This amendment limits the IAS 28 treatment mentioned above, and requires all gains or losses to be recognized when the assets sold or contributed constitute a business defined under IFRS 3.

Meanwhile, IFRS 10 was amended so that, when an investor sells or contributes a subsidiary that does not constitute a business defined under IFRS 3 with its associated company or joint venture, gains or losses that arise as a result shall be recognized only for the share that is not attributed to the investor.

(2) IFRS 17 - "Insurance Contracts"

This standard provides a comprehensive model for the treatment of insurance contracts, including accounting practices (from recognition, measurement, presentation to disclosure). The standard uses a general model at its core, and under this model, a group of insurance contracts shall be recognized at initiation as the sum of fulfillment cash flows and contractual service margin; thereafter, book value for the group of insurance contracts shall be presented as the sum of liability for remaining coverage and liability for incurred claims as at each balance sheet date.

In addition to the general model, the standard also introduces treatment for insurance contract with direct participation features (the Variable Fee Approach) and simplified approach for short-term contracts (the Premium Allocation Approach).

This standard was first published in May 2017 and later amended in 2020 and 2021, which postponed the effective date stated in the transition clause by 2 years (from January 1, 2021 to January 1, 2023), introduced additional exemptions, and reduced cost of adoption through the simplified approach. The amendment also made some circumstances easier to interpret. This standard will supersede the transitional standard (i.e. IFRS 4 - "Insurance Contracts") once effected.

(3) Amendments to IAS 21 - "Lack of Exchangeability"

The amendments explain the exchangeability and lack of exchangeability between currencies and how to determine the exchange rate as well as additional disclosures required when a currency is not exchangeable. The amendments will take effect for annual periods beginning on January 1, 2025.

All above standards and interpretations announced by IASB but not yet approved by FSC shall become effective on dates announced by FSC. The Group is currently evaluating the potential impacts of newly announced/amended standards and interpretations listed in (1), and is unable to provide reasonable estimate of how the above standards or interpretations may affect the Group. Aside from the above, other newly announced/amended standards and interpretations have no material impact on the Group.

(IV). Summary of Significant Accounting Policies

1. Compliance statement

The consolidated financial statements of the Group for the years ended December 31, 2023 and 2022 have been prepared in accordance with Regulations Governing the Preparation of Financial Reports by Securities Issuers and the version of IFRS, IAS, IFRIC and interpretations thereof approved and effected by the FSC.

2. Basis of Preparation

The consolidated financial statements have been prepared based on historical cost, except for financial instruments carried at fair value. Unless otherwise specified, all amounts in the consolidated financial statements are presented in NTD thousands.

3. Consolidation overview

Basis of preparation for consolidated financial statements

The Company is considered to exercise control if it is exposed or entitled to variable returns generated by an investee and has the power to influence such return through control over the investee. Specifically, the Company considers itself to exercise control over an investee when all three conditions below are satisfied:

- (1) Power over the investee (i.e. existing rights that give the current ability to direct the relevant activities of the investee)
- (2) Exposure or entitlement to variable returns due to involvement in the investee's operation, and
- (3) Ability to influence returns by exercising authority over the investee

If the Company directly or indirectly holds less-than-majority voting rights (or rights of similar nature) in an investee, the Group would evaluate whether it has power over the investee after taking into consideration all relevant facts and circumstances, including:

- (1) Agreement with other voting right holders in the investee
- (2) Power given rise through other agreement
- (3) Voting rights and potential voting rights

When facts or circumstances indicate change in one or several of the three control elements above, the Company would immediately evaluate whether it still exercises control over the investee.

A subsidiary is consolidated into the consolidated financial statements from the day of acquisition (i.e., the day the Company gains control), until the day control is lost on the subsidiary. All subsidiaries adopt accounting periods and accounting policies that align with those of the parent company. All intra-group account balances, transactions, dividends, and unrealized gains or losses on intra-group transactions are eliminated upon consolidation.

Changes in shareholding of subsidiary without losing control are treated as equity transactions.

Total comprehensive income produced by subsidiaries is divided into amounts that are attributable to owners of the Company and amounts that are attributable to non-controlling shareholders, even if the allocation would put non-controlling equity in negative balance.

When the Company loses control in a subsidiary

- (1) All assets (including goodwill) and liabilities of the subsidiary are removed;
- (2) Book value of any non-controlling equity is removed;
- (3) Fair value of consideration received is recognized;
- (4) Fair value of any investment retained is recognized;
- (5) Amount previously recognized in other comprehensive income of the parent company is reclassified as current profit or loss or directly transferred to retained earnings in accordance with the provisions of other IFRS;
- (6) The resulting difference is recognized as current profit or loss.

This consolidated financial statement encompasses the following:

| | | | Ownership | percentage |
|---------------------------|-----------------------------|----------------------|--------------|--------------|
| | | Main business | December 31, | December 31, |
| Name of the investor | Name of subsidiary | activities | 2023 | 2022 |

| Limited | Technology Inc. | trading | | |

Note: The board of directors passed the resolution on July 28, 2023 to initiate the dissolution and liquidation process of Stark Information (Hong Kong) Limited. As of December 31, 2023, the dissolution and liquidation had not been completed yet.

4. Foreign currency transactions

The Group's consolidated financial statements are presented in the Company's functional currency (NTD). Each entity within the Group determines its own functional currency, and prepares financial statements using their respective functional currencies.

Foreign currency transactions by entities of the Group are converted into the functional currency using exchange rates as of the date of transaction. Foreign currency monetary items are converted using closing exchange rate at the end of each reporting period. Foreign currency-denominated non-monetary items measured at fair value are converted using exchange rate as of the valuation date. Foreign currency-denominated non-monetary items carried at historical cost are converted using exchange rate as of the initial transaction date.

Exchange differences arising from settlement or translation of monetary accounts are recognized in profit and loss in the period occurred, except in the following circumstances.

- (1) For foreign currency loans that are undertaken for the purpose of acquiring a qualifying asset, the exchange difference would form part of the borrowing cost if it is treated as an adjustment to interest cost, and capitalized into the cost of the asset.
- (2) Foreign currency items subject to IFRS 9 "Financial Instruments" are treated using accounting policy on financial instruments.
- (3) For monetary items that make up a part of the reporting entity's net investments in foreign operation, exchange difference is recognized as other comprehensive income at initiation, and subsequently reclassified from equity into profit or loss upon disposal of net investments.

Non-monetary accounts that have gains and losses recognized as other comprehensive income shall also have any exchange component of that gain or loss recognized as other comprehensive income. Non-monetary accounts that have gains and losses recognized in profit and loss shall also have any exchange component of that gain or loss recognized in profit and loss.

5. Translation of foreign currency financial statements

When preparing consolidated financial statements, assets and liabilities of foreign operations are converted into NTD using closing exchange rate as at the balance sheet date, whereas income, expenses, and losses are converted using average exchange rate for the current period. Exchange differences arising from financial statement translation are recognized as other comprehensive income; upon disposal of foreign operations, exchange differences previously recognized as other comprehensive income and accumulated under equity from the separate parts are reclassified from equity to profit or loss when recognizing gain/loss on disposal. In a partial disposal of subsidiary containing foreign operation that results in a loss of control, and partial disposal of equity in an associated company or joint agreement containing foreign operation, the disposal treatment shall also

apply if the remaining equity can be regarded as a financial asset containing foreign operation.

In a partial disposal of subsidiary containing foreign operation that does not result in a loss of control, cumulative exchange differences previously recognized in other comprehensive income are re-attributed to non-controlling equity of such foreign operation, instead of being recognized in profit or loss. In a partial disposal of associated company or joint agreement containing foreign operation where significant influence or joint control is not lost, cumulative exchange differences are reclassified into profit or loss proportionally.

Goodwill arising from acquisition of foreign operations and fair value adjustments to the book value of assets and liabilities are accounted as assets and liabilities of the respective foreign operations, and presented in the functional currency.

6. Classification of current and non-current assets and liabilities

Assets that satisfy any of the following criteria are classified as current assets; assets that are not classified as current are classified as non-current assets:

- (1) Assets that are expected to be realized, or intended to be sold or consumed, in the Group's normal operating cycle.
- (2) Assets that are held mainly for the purpose of trading.
- (3) Assets that are expected to be realized within 12 months after the end of the reporting period.
- (4) Cash or cash equivalents, except those are restricted from being swapped or used to repay liabilities beyond 12 months after the end of the reporting period, and those with restricted uses.

Liabilities that satisfy any of the following criteria are classified as current liabilities; liabilities that are not classified as current are classified as non-current liabilities:

- (1) Liabilities that are expected to be repaid in the Group's normal business cycle.
- (2) Liabilities that are held mainly for the purpose of trading.
- (3) Liabilities that are expected to be repaid within 12 months after the end of the reporting period.
- (4) Liabilities where the repayment terms cannot be unconditionally beyond 12 months after the end of the reporting period. Liabilities with terms that give counterparties the option to be repaid by the issue of equity instruments do not affect their classification.

7. Cash and cash equivalents

Cash and cash equivalent refer to cash on hand, demand deposit, and short-term and highly liquid time deposits or investments (including time deposits with terms equal to or less than 12 months) that are readily convertible into known amounts of cash, and are subject to an insignificant risk of changes in value.

8. Financial instruments

Financial assets and financial liabilities are recognized when the Group becomes a party to a financial instrument contract.

Financial assets and liabilities subject to IFRS 9 - "Financial Instruments" are measured at fair value at initiation. Transaction costs that are directly attributable to the acquisition or issuance of financial assets and liabilities (except for financial assets and liabilities at fair value through profit or loss) are added to or deducted from the fair value of the respective asset/liability.

(1) Recognition and measurement of financial assets

Regular transactions of financial asset are recognized and derecognized using trade date accounting.

The Group classifies financial assets into those that are carried at amortized cost, at fair value through other comprehensive income, and at fair value through profit or loss based on the two considerations below:

- A. Business model for managing the financial assets
- B. Characteristics of contractual cash flow for the financial assets

Financial assets at amortized costs

Financial assets that simultaneously satisfy the two conditions below are carried at amortized cost and presented on balance sheet as notes receivable, accounts receivable, installment accounts receivable, long-term installment accounts receivable, and other receivables:

- A. Business model for managing the financial assets: financial asset is held for the purpose of collecting contractual cash flow
- B. Characteristics of contractual cash flow for the financial assets: cash flow is solely used to pay principal and interests on outstanding principal

These financial assets (excluding those that are associated with hedge) are subsequently carried at amortized cost {i.e., the initial amount less principals repaid, plus/less cumulative amortization of differences between the initial amount and the maturity amount (calculated using the effective interest method), and adjusted for loss provisions}. Upon derecognition, amortization, or recognition of impairment gains/losses, the gains or losses are recognized in profit or loss.

Interests calculated using the effective interest method (i.e., by multiplying the book value of financial asset with effective interest rate) or under the following circumstances are recognized in profit or loss:

- A. Purchased or originated credit-impaired financial assets, where interest is calculated by multiplying the cost of financial assets after amortization with credit-adjusted effective interest rate.
- B. Subsequent impairment of financial asset that does not meet the above description, where interest is calculated by multiplying the cost of financial assets after amortization with effective interest rate.

Financial assets at fair value through other comprehensive income

Financial assets that simultaneously satisfy the two criteria below are measured at fair value through other comprehensive income, and presented on the balance sheet as financial assets at fair value through other comprehensive income.

- A. Business model for managing the financial assets: financial asset is held for collecting contractual cash flow and sale
- B. Characteristics of contractual cash flow for the financial assets: cash flow is solely used to pay principal and interests on outstanding principal

Gains and losses associated with this type of financial assets are recognized in the following manner:

- A. Prior to derecognition or reclassification, gains and losses are recognized in other comprehensive income, except for impairment gains/losses and foreign exchange gains/losses, which are recognized in profit or loss
- B. Upon derecognition, all cumulative gains/losses previously recognized in other comprehensive income are reclassified from equity to profit or loss and treated as a reclassification adjustment
- C. Interests calculated using the effective interest method (i.e., by multiplying the book value of financial asset with effective interest rate) or under the following circumstances are recognized in profit or loss:
 - (a) Purchased or originated credit-impaired financial assets, where interest is calculated by multiplying the cost of financial assets after amortization with credit-adjusted effective interest rate.
 - (b) Subsequent impairment of financial asset that does not meet the above description, where interest is calculated by multiplying the cost of financial assets after amortization with effective interest rate.

For equity instruments that are subject to IFRS 9 but are neither held for trading nor recognized as acquirer's contingent consideration under IFRS 3 - Business Combinations, a (irrevocable) choice can be made at initial recognition to account for subsequent fair value changes in other comprehensive income. Amounts presented in other comprehensive income cannot be subsequently reclassified into profit or loss (upon disposal of the equity instrument, amounts previously accumulated under other equity item are reclassified directly into retained earnings); these instruments are presented on balance sheet as financial assets at fair value through other comprehensive income. Dividends from investments are recognized in profit or loss, unless the dividends clearly represent a partial recovery of the investment cost.

Financial assets at fair value through profit or loss

With the exception of financial assets that are carried at amortized cost or measured at fair value through other comprehensive income for satisfying the special criteria mentioned above, all other financial assets are measured at fair value through profit or loss, and presented on balance sheet at fair value through profit or loss.

This category of financial assets is measured at fair value. Gains or losses arising from remeasurement are recognized in profit or loss. The amount of gains and losses recognized in profit or loss includes all dividends or interests collected on the financial asset.

(2) Impairment of financial assets

The Group recognizes and measures the loss provisions for debt instrument investments held at fair value through other comprehensive income and financial assets carried at amortized cost at an amount equal to expected credit loss. Loss provisions on debt instrument investments held at fair value in other comprehensive income are recognized through other comprehensive income and do not reduce the book value of investment.

The Group measures expected credit losses after taking into account of the following:

- A. An unbiased and probability-weighted amount determined after assessing the possible outcomes
- B. Time value of monetary
- C. Rational and verifiable information about past event, current situation, and future economic forecast (that can be obtained on the balance sheet date without incurring excessive cost or input)

Loss provisions are measured using the methods explained below:

- A. At an amount equal to 12-month expected credit loss: applies to financial assets that exhibit no significant increase in credit risk since initial recognition, or those that are considered to be of low credit risk as at the balance sheet date. This method also applies to accounts that had loss provisions measured based on lifetime expected credit losses in the previous reporting period, but no longer meets the condition of having exhibited significant increase in credit risk since initial recognition as at the current balance sheet date.
- B. At an amount equal to lifetime expected credit losses: applies to financial assets that exhibit significant increase in credit risk since initial recognition, or purchase or originated credit-impaired financial assets.
- C. For accounts receivable or contract assets that arise from the transactions defined in IFRS 15, the Group measures loss provisions at an amount equal to lifetime expected credit losses.
- D. For lease receivable that arises from the transactions defined in IFRS 16, the Group measures loss provisions at an amount equal to lifetime expected credit losses.

On each balance sheet date, the Group examines financial instruments for any change in default risk between the balance sheet date and the date of initial recognition, and in doing so evaluates whether there is significant increase in the credit risk of financial instrument since initial recognition. Please see Note (XII) for credit risk-related information.

(3) Derecognition of financial assets

Financial assets that satisfy any of the following criteria are derecognized:

- A. When contractual entitlement to receive cash flow from the asset has ended.
- B. When the financial asset has been transferred along with virtually all risks and returns associated with the ownership of the asset.
- C. When control of the asset has been transferred, even if the Group does not transfer or retain virtually all risks and returns associated with the asset.

When a financial asset is derecognized, the difference between book value and the sum of consideration received/receivable plus any cumulative gains or losses previously recognized in other comprehensive income is recognized in profit or loss.

(4) Financial liabilities and equity instruments

Classification of liability and equity

Debt and equity instruments issued by the Group are classified into financial liabilities or equity based on the essence of the contract agreement and definitions of financial liabilities and equity instrument.

Equity instrument

Equity instrument refers to any contract that represents residual interests after the Group deducts all of its liabilities from its assets. Equity instruments issued by the Group are recognized at the amount of proceeds received net of direct issuing costs.

Financial liabilities

Financial liabilities subject to IFRS 9 are classified as financial liabilities at fair value through profit or loss or financial liabilities at amortized cost at initiation.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities that are held for trading and designated to be measured at fair value through profit or loss.

Financial liabilities are classified as held for trading if it satisfies any of the following criteria:

- A. Acquired mainly for the purpose of being sold in the short term.
- B. Having been recognized at initiation as part of a portfolio of identifiable financial instruments under collective management, and there is evidence to suggest that the portfolio is being traded for short-term profits; or
- C. Exhibits the characteristics of a derivative instrument (except for financial guarantee contracts or derivative instruments designated for effective hedge).

Contracts that contain one or multiple embedded derivative instruments can be designated as hybrid (combined) contracts, and presented as financial liabilities at fair value through profit or loss. These instruments are designated to be measured at fair value through profit or loss at initiation if more relevant information can be obtained in one of the following situations:

- A. Designation would eliminate or significantly reduce discrepancies arising from measurement or recognition; or
- B. A group of financial liabilities or a group of financial assets and liabilities that are managed and evaluated performance based on fair value, as per risk management guidelines or investment strategy that are in written form, and that information of the investment portfolio provided internally to the management of the Group is also based on fair value.

Gains and losses arising from remeasurement of this category of financial liabilities are recognized in profit or loss. The amount of gains and losses recognized in profit or loss includes all interests paid on the financial liability.

Financial liabilities at amortized costs

Financial liabilities at amortized costs include payables and loans, which are subsequently measured using the effective interest rate method after initial recognition. When financial liabilities are derecognized from balance sheet and when amortization is provided using the effective interest rate method, the corresponding gains, losses, and amortizations are recognized in profit or loss.

Calculation of amortized costs takes into consideration discounts or premiums at the time of acquisition and transaction costs.

Derecognition of financial liabilities

Financial liabilities are derecognized from balance sheet when obligations have been relieved, canceled, or voided.

When the Group engages a creditor in a swap of debt instruments with significant discrepant terms, or makes significant modification to some or all terms of existing financial liability (whether due to financial distress or not), the effects are accounted by derecognizing the original liability and recognizing the new liability at the same time. When derecognizing financial liability, differences between the book value and the considerations paid/payable (including non-cash assets transferred or liabilities assumed) are recognized in profit or loss.

(5) Offset of financial assets and liabilities

Financial assets and financial liabilities may be offset against each other and reported in the balance sheet in net amount only when the entity is legally entitled to do so and has the intention to settle assets and liabilities in net amount or to realize the asset and settle the liability at the same time.

9. Fair value assessment

Fair value refers to the price that market participants are able to receive for selling an asset, or the price that has to be paid to transfer a liability, in an orderly transaction on the measurement date. Fair value assessment assumes that the asset/liability is sold/transferred in one of the following markets:

- (1) The principal market for the asset or liability; or
- (2) The most advantageous market for the asset or liability, if the principal market does not exist

The principal or most advantageous market must be one that the Group has access to and is able to transact in.

Common assumptions that market participants adopt for pricing assets or liabilities are used when assessing fair value of an asset or liability. These assumptions assume that market participants all act in their best economic interest.

Fair value assessment of non-financial assets takes into consideration market participants' intent to make the highest and best use of the asset, or their intent to sell the asset to another market participant that will make the highest and best use in order to generate economic benefits.

The Group assesses fair value by adopting valuation techniques that are appropriate for the given circumstance and for which data can be obtained, while maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

10. Inventories

Accounted at acquisition cost; the cost of inventory is calculated using the weighted average method. Inventory is subsequently measured at the lower of cost or net realizable value item by item. Net realizable value refers to the balance of estimated selling price less any costs required to sell inventory under normal circumstances. Allowance for losses on inventory devaluation and obsolescence is made for any inventory that is considered slow-moving or obsolete.

11. Property, plant and equipment

Property, plant and equipment are recognized at acquisition cost and presented net of accumulated depreciation and accumulated impairment. The abovementioned cost includes the cost of uninstalling, removing, and restoring property, plant and equipment at the given location, and any interest costs incurred on construction-in-progress. Significant compositions of property, plant, and equipment are depreciated separately. When making regular replacements for major component of property, plant, and equipment, the Group treats the replacement as a separate asset and recognizes depreciation based on the specified useful life and depreciation method. Book values of replaced assets are derecognized from balance sheet in accordance with IAS 16 - "Property, plant and equipment." Major repair costs that satisfy the recognition criteria are treated as replacement costs and recognized as part of the book value of property, plant and equipment. All other repair and maintenance expenditures are recognized in profit or loss.

Depreciation is provided on a straight-line basis over the estimated useful lives mentioned below:

| Buildings | 51-56 years |
|----------------------------------|-----------------------------------------------|
| Accessory equipment of buildings | 6 years |
| Transportation equipment | 6 years |
| Office equipment | 4-6 years |
| Right-of-use assets/lease assets | The lower between lease tenor and useful life |
| Lease improvements | The lower between lease tenor and useful life |
| Other equipment | 2-6 years |

The entity derecognizes property, plant and equipment or any of its major components from balance sheet and recognizes in profit or loss when it disposes the asset or expects no further inflow of economic benefits from utilization or disposal of the asset.

Residual value, useful life, and depreciation method of property, plant and equipment are evaluated at the end of each financial year. If the expected value differs from previous estimates, the difference is treated as a change in accounting estimate.

12. Lease

The Group evaluates whether a contract meets the criteria of (or contains) lease on the day of establishment. A contract is considered as (or contains) lease if it involves a transfer of control over identified assets for a period of time in exchange for consideration. To determine whether a contract transfers the right to control the use of an identified asset for a period of time, the Group evaluates whether the following two conditions are met throughout the entire period of use:

- (1) The user has the right to obtain substantially all of the economic benefits from using the identified asset; and
- (2) The user has the right to determine how identified asset is used.

For contracts that meet the criteria of (or contain) lease, the Group treats every lease component in the contract as a standalone lease, and accounts for non-lease components separately. For a contract that contains a lease component and one or multiple additional lease or non-lease components, the Group separates relative standalone price of each lease component from total standalone price of non-lease components, and allocates consideration to lease components. Relative standalone prices of lease and non-lease components are determined based on the price received by lessor (or supplier of similar nature) for the particular component (or similar component). If observable standalone

prices are not readily available, the Group will maximize the use of observable information to estimate the standalone price.

Where the Group is the lessee

Except for leases that meet the criteria for and are accounted as short-term lease or least of low-value asset, the Group recognizes right-of-use assets and lease liabilities on all lease contracts where it is the lessee.

On the commencement date, the Group measures lease liabilities at the present value of unpaid lease payments outstanding on that day. Lease payments are discounted at the implicit interest rate if it can be determined easily. If the implicit interest rate cannot be determined easily, the lessee's incremental borrowing rate is used instead. Lease payments to be included in the calculation of lease liabilities on the commencement date include the following payments outstanding on that day that are relevant to the right-of-use of the underlying asset over the lease tenor:

- (1) Fixed payments (including in-substance fixed payments), less any lease incentives receivable;
- (2) Variable lease payments that are determined by certain index or rate (which are initially measured using index or rate as at the commencement date);
- (3) Amounts that the lessee expects to pay under guaranteed residual value;
- (4) Exercise price for the purchase option, provided that the Group is reasonably certain to exercise such option; and
- (5) Penalties that have to be paid upon termination of lease, if the lease term reflects the lessee's intent to exercise the termination option.

After the commencement date, the Group measures lease liabilities at amortized cost basis and uses the effective interest method to increase the book value of lease liabilities to reflect the interest expense on lease liabilities. Lease payments reduce the book value of lease liabilities.

The Group measures right-of-use assets at cost on the commencement date; the cost of right-of-use asset includes:

- (1) Initial measured amount of lease liabilities;
- (2) Any lease payment made on or before the commencement date, less any lease incentive received;
- (3) Any direct cost incurred by the lessee at initiation; and

(4) Estimated cost for the lessee to dismantle, remove the underlying asset, and restore its original location, or to restore the underlying asset to the state specified in the terms and conditions of the lease agreement.

Right-of-use assets are subsequently measured at cost less accumulated depreciation and accumulated impairment loss; in other words, the cost method is used to measure right-of-use assets.

If ownership of the underlying asset is due to be transferred to the Group at the end of the lease tenor, or if the cost of right-of-use asset already reflects the Group's intent to exercise the option to purchase, the Group shall begin recognizing depreciation on right-of-use assets from the commencement date until the end of useful life. Otherwise, the Group is required to recognize depreciation from the commencement date until the end of useful life of the right-of-use asset or until the end of the lease tenor, whichever the earlier.

The Group adopts IAS 36 - "Asset impairment" to determine whether right-of-use assets exhibit signs of impairment and account for any impairment losses identified.

Except for leases that meet the criteria for and are accounted as short-term lease or lease of low-value asset, the Group recognizes both right-of-use assets and lease liabilities on the balance sheet, and lease-related depreciation and interest expenses on the statement of comprehensive income.

The Group accounts lease payments associated with short-term lease and lease of low-value asset as expense over the lease tenor on a straight-line basis or using an alternative systematic approach.

Where the Group is the lessor

The Group classifies each lease arrangement into an operating lease or financing lease on the contract establishment date. A lease is classified as financial lease if virtually all risks and returns associated with ownership of the underlying asset are transferred; otherwise, the lease is classified as an operating lease. On the commencement date, the Group recognizes assets held under financial lease arrangement on balance sheet, and presents financial lease receivable at the amount of net lease investments.

For contracts that contain both lease component and non-lease component, the Group adopts IFRS 15 and allocates considerations of contracts accordingly.

The Group recognizes lease payments received from operating leases as rental income on a straight-line basis or using alternative systematic basis. In an operating lease, variable lease payments that are not derived from any particular index or rate are recognized as rental income at the time occurred.

13. <u>Intangible asset</u>

Intangible assets that are acquired separately are measured at cost at initiation. For intangible assets acquired through business combination, cost is determined as fair value as of the acquisition date. After initial recognition, book value of intangible assets is subsequently presented at cost less accumulated amortization and accumulated impairment loss. Intangible assets generated internally that do not meet the recognition criteria are not capitalized, but recognized in profit or loss at the time occurred.

Intangible assets are distinguished into those with finite useful lives and those with indefinite useful lives.

Finite useful life intangible assets are amortized over the number of useful years, and subjected to impairment tests if there are signs of impairment. Useful life and method of amortization for finite useful life intangible assets are reviewed at the end of each financial year. If an asset's expected useful life differs from the previous estimate or if there is a change to how future economic benefits are realized, the Group will adjust the period and method of amortization and treat the adjustment as a change in accounting estimate.

Indefinite useful life intangible assets are not amortized, but are subjected to impairment tests as a standalone asset or as part of the cash-generating unit yearly. Indefinite useful life intangible assets are evaluated each year to determine whether there are events or circumstances that continue to support the assets' useful life are indefinite. If changing from indefinite useful life to finite useful life, that apply will be postponed.

Gains or losses arising from the derecognition of intangible assets are recognized in profit or loss.

Computer software

Cost of computer software is amortized on a straight-line basis over the estimated useful life (1 to 5 years).

| | Computer software |
|-------------------------|-----------------------------------------|
| Useful life | Finite |
| Amortization method | Amortized on a straight-line basis over |
| | the estimated useful life |
| Internally generated or | Externally acquired |
| externally acquired | |

14. <u>Impairment on non-financial assets</u>

All assets subject to IAS 36 - "Asset impairment" are evaluated whether there is a sign of impairment at the end of each reporting period. If there is a sign of impairment or impairment tests on particular asset is needed yearly, the Group will conduct the impairment tests as a standalone asset or as part of the cash-generating unit. Impairment losses are recognized if the impairment test shows book value of the asset or cash-generating unit exceeds its recoverable amount. Recoverable amount is the higher between the net fair value and the utilization value.

For assets except for goodwill, the Group conducts regular assessments at the end of each reporting period to determine whether impairment losses recognized in previous periods have reduced or no longer exist. If so, the Group immediately estimates the recoverable amount of the asset or cash-generating unit. Impairment losses are reversed if the recoverable amount increases due to a change in estimated service potential of the underlying asset. However, the asset's book value after reversal of impairment losses cannot exceed the amount of book value less depreciation or amortization before the impairment took place.

Impairment losses and reversal gains from continuing operations are recognized in profit or loss.

15. Provisions

Provisions are recognized on current obligations (legally or constructive) given rise by a past event, for which the Group is very likely to incur an outflow of economic benefit or

resource to settle such an obligation, and that the amount of obligation can be estimated reliably. When the Group expects some or all of its provisions to be reimbursed, the Group will recognize assets separately only when the reimbursement is almost confirmed. In circumstances where time value of money has a significant impact, the provision is discounted using the pre-tax interest rate that appropriately reflects the specific risk characteristics of the liability. When discounting, any increase in the amount of liability due to passage of time is recognized as borrowing cost.

Provisions for warranty

Provisions for warranty are estimated base on the terms of product sale contracts, and the management's best estimate of future economic benefit outflows of warranty obligations (based on historical warranty experience).

16. Revenue recognition

Revenue from contracts with customers mainly involves sale of merchandise and rendering of service. Accounting treatments are as explained below:

Sales of merchandise

The Group recognizes revenue on sale of merchandise when the promised merchandise has been delivered to the customer and that the customer has control of the merchandise (i.e. the customer is able to make use of the merchandise and access virtually all remaining benefits on the merchandise). Most of the merchandises sold are electronic equipment of high unit price, for which revenues are recognized based on prices stated in individual contracts. Other merchandises are often sold with discount (based on sales volume accumulated within a defined period), therefore revenue is recognized at prices stated in individual contracts less estimated discounts. The Group estimates how volume-based discounts affect variable consideration using previous experience and expected value. However, variable consideration is only taken into account if, and to the extent that, it is highly probable that its inclusion will not result in a significant revenue reversal in the future when the uncertainty has been subsequently resolved. Meanwhile, expected volume discount is recognized as refund liabilities in period of agreement.

Warranty represents the Group's assurance that the merchandise supplied will function within customers' expectations, and is recognized according to IAS 37.

The Group sells merchandises with a credit term of 30-120 days. For most contracts,

accounts receivables are recognized when the Group transfers control of merchandise and obtains an unconditional entitlement to receive consideration. Such accounts receivable is usually short in duration and there is no significant financial component. For some contracts that merchandise is transferred to customer but does not obtain unconditional entitlement to receive consideration yet, the Group would recognize contractual assets instead. According to IFRS 9, loss provisions on contract assets should be measured based on Lifetime Expected Credit Losses.

Rendering of service

The services provided by the Group are mainly maintenance, warranty, and design. Such services are priced individually or through negotiation, and provided during the contract period. Service income is recognized over time, considering that the Group renders services in a period of time specified in contract and that customers generate benefits from product throughout contract duration, thereby the performance obligation is fulfilled progressively over time, and service income is recognized over time.

For the majority of the Group's contracts, consideration is collected over equal installments after services are rendered. Contractual assets are recognized when services are rendered to customers without unconditional entitlement to collect consideration. However, in certain contracts where partial consideration is collected from customers in advance at the time of signing, the Group bears the obligation to provide subsequent services and therefore recognizes contractual liabilities.

In the above situation, the reclassification of contractual liabilities into income generally do not exceed one year, and hence has not given rise to significant financing component.

17. Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction, or production of qualifying assets are capitalized into part of the cost of the respective assets. All other borrowing costs are expensed in the period incurred. Borrowing cost includes interest and other costs incurred in relation to the borrowing of capital.

18. Post-employment benefit plans

The Company and domestic subsidiaries' retirement policies apply to all permanent employees. All pension contributions are placed entirely under the management of the Labor Pension Fund Supervisory Committee and deposited into a dedicated pension fund

account. Since the above pension fund is being held under the name of the Labor Pension Fund Supervisory Committee, it is completely separate from the Company's and domestic subsidiaries' assets and hence excluded from the consolidated financial statements presented above. For employees of foreign subsidiaries, retirement policy is subject to local regulations.

For employees under the post-employment benefit plans of defined contribution plan, the Company and domestic subsidiaries make monthly pension contributions totaling no less than 6% of employees' salary. The amounts contributed are recognized as current period expense.

For employees that are subject to post-employment benefit plans of defined benefit plan, provisions are made at the end of the reporting period based on actuarial report using the Projected Unit Credit method. Remeasurement of net defined benefit liabilities (assets) includes return on plan asset and any change in the effect of asset cap, less the amount of net interest on the net defined benefit liabilities (assets) and actuarial gains/losses. Remeasurement of net defined benefit liabilities (assets) is recognized in other comprehensive income in the periods they occur, and recognized immediately into retained earnings. Service costs for the previous period represent changes in the present value of defined benefit obligations due to plan amendment or curtailment, and are recognized as expense on the earlier of the two dates below:

- (1) When the plan is amended or curtailed; and
- (2) When the Group recognizes related restructuring costs or termination benefits.

Net interest on net defined benefit liabilities (assets) is determined by multiplying net defined benefit liabilities (assets) with the discount rate. Both variables are determined at the beginning of annual reporting period, and changes in net defined benefit liabilities (assets) due to contributions and benefit payments during the period are evaluated thereafter.

19. Income tax

Income tax expense (benefit) is the aggregate amount included in the determination of profit or loss for the period in respect of current income tax and deferred income tax.

Current income tax

Current income tax liabilities (assets) for the current and previous periods are measured

using statutory or substantively enacted tax rates and tax laws at the end of the reporting period. Current income taxes that arise in relation to accounts recognized in other comprehensive income or directly in equity are also recognized in other comprehensive income or in equity respectively, instead of profit or loss.

Additional income tax for undistributed earnings is recognized as income tax expense on the date when the distribution proposal is approved in the annual shareholders' meeting.

Deferred income tax

Deferred income tax is recognized on temporary differences between the tax basis of assets and liabilities and book value shown in the balance sheet as of the end of the reporting period.

All taxable temporary differences are recognized as deferred income tax liabilities, except for the two circumstances below:

- (1) Initial recognition of goodwill; or of an asset or liability that do not arise from transactions of the corporate entity, and at the time of transaction, affects neither accounting profit nor taxable profit (loss) nor gives rise to equal taxable and deductible temporary differences.
- (2) Taxable temporary difference that arises from investment in subsidiaries, provided that the timing of reversal can be controlled and the difference is very unlikely to reverse in the foreseeable future.

Deferred income tax assets are recognized on deductible temporary differences, unused tax losses, and carry forward of unused tax credit to the extent that the Group is likely to earn taxable income to offset them in the future, except for the two circumstances below:

- (1) Deductible temporary difference arising from initial recognition of an asset or liability that is unrelated to transactions of the corporate entity, and at the time of transaction, affects neither accounting profit nor taxable profit (loss) nor gives rise to equal taxable and deductible temporary differences.
- (2) Deductible temporary difference arising from investment in subsidiaries, which is recognized only to the extent that the difference is very likely to be reversed in the foreseeable future and that sufficient taxable income can be earned to realize the temporary difference.

Deferred income tax assets and liabilities are measured using tax rate that is expected to apply in the year when the asset is realized or the liability is settled. This tax rate is determined based on the tax rate and tax laws that have been enacted of substantively enacted at the end of the reporting period. Deferred income tax liabilities and assets represent tax impacts of the method by which the entity expects to recover/settle the book value of its assets and liabilities at the end of the reporting period. Deferred income taxes unrelated to any profit or loss account are not recognized in profit or loss, but are instead recognized in other comprehensive income or directly in equity depending on the nature of the transaction. Deferred income tax asset is re-examined and recognized at the end of each reporting period.

Current portions of deferred current income tax assets and liabilities can be offset against each other only if the entity is legally entitled to do so, and that the deferred income taxes are attributed to the same taxpayer and the same tax authority.

(V). Sources of Uncertainty to Significant Accounting Judgments, Estimates, and Assumptions

When preparing consolidated financial statements, the management is required to make judgments, estimates, and assumptions as at the end of the reporting period, which will affect the amounts of income, expenses, assets, and liabilities reported and disclosure of contingent liabilities. Uncertainties associated with these significant assumptions and estimates may cause the entity to make significant adjustments to the book value of assets or liabilities in the future.

1. Judgment

When applying accounting policies for the preparation of financial statements, the management is required to make several significant judgments.

These include:

Operating lease commitments - where the Group is the lessor

Lease arrangements in which the Group retains significant risk and return associated with property ownership, according to the assessments on the terms of the lease agreement, are accounted as operating leases.

2. Estimates and assumptions

Estimates and assumptions made about the future at the end of the reporting period for significant but uncertain sources of information may result in significant risks for material adjustments to the book value of assets and liabilities in the next financial year. Explanation is as follows:

(1) Fair value of financial instruments

When fair value of a financial asset and financial liability shown on balance sheet cannot be obtained through active market, the fair value will be determined using valuation technique, such as the income approach (e.g., discounted cash flow model) or market approach. Changes in the assumptions used in these models will affect the fair value of financial instruments reported. Please see Note (XII) for more details.

(2) <u>Inventories valuation</u>

Due to the fact that inventory is valued at the lower of cost or net realizable value item by item, the Group is required to exercise judgment and make estimates in order to determine the net realizable value of inventory at the end of the reporting period.

Due to rapidly changing technologies, the Group estimates the net realizable value of inventory for normal waste, obsolescence and market value at the end of reporting period and then writes down the cost of inventories to net realizable value. Inventory valuation is estimated primarily based on inventory characteristics, utilization value, historical experience, and market price, and therefore may give rise to significant changes. See Note (VI) for more details.

(3) Post-employment benefit plans

Pension cost and present value of defined benefit obligations of post-employment benefit plans are determined using actuarial valuations. The actuarial valuation involves several different assumptions, including discount rate and expected salary changes. Please see Note (VI) for details on the assumptions used to measure pension cost and defined benefit obligations.

(4) Revenue recognition - sales return and discount

The Group estimates sales return and discount based on historical experience and other

known factors, and accounts them as contra items to operating revenues when merchandise is sold. The aforementioned estimates of sales returns and discounts are based on the amount of the accumulated revenue recognized in major reversals is highly unlikely to happen based on the premise. See Note (VI) for more details.

(5) Receivables - estimation of impairment losses

The Group estimates impairment loss of receivables by measuring the lifetime expected credit losses. Credit loss is determined as the present value of differences between contractual cash flow that is due to the Group under contracts (book value) and cash flow the Group expects to receive (after evaluating forward-looking information), but considering that the effect of discounting is insignificant for short-term receivables, credit loss is measured using the undiscounted differences. Significant impairment losses may arise if actual cash flow is less than expectation in the future. See Note (VI) for details.

(6) Income tax

Uncertainty of income tax lies in the interpretation of complex tax laws and the amount and timing of future taxable income. Due to the wide range of international business relationships and the long-term nature and complexity of contracts, differences between the actual outcome and the assumptions made previously or future changes to such assumption may necessitate future adjustments to income tax benefits and expenses already recognized. The Group establishes provisions, based on reasonable estimates, for possible consequences of audits by the tax authorities of the respective countries in which it operates. The amount of provision is recognized after taking into account different factors such as: past tax audit experience and the different interpretations of tax law between the subject of tax and the applicable tax authority. Differences in interpretation may give rise to various issues depending on where the Group is located.

Unused tax losses and tax credits carried into subsequent periods and deductible temporary differences are recognized as deferred income tax assets to the extent that the entity is very likely to earn taxable income to offset against. The amount of deferred income tax assets recognizable is determined based on the timing and level of future taxable income and taxable temporary differences, as well as future tax plans and strategies. See Note (VI) for details of deferred income tax assets that the Group had not recognized as at December 31, 2023.

(VI). Notes to Major Accounts

1. Cash and cash equivalents

| | December 31, 2023 | December 31, 2022 |
|--------------------------|-------------------|-------------------|
| Cash | \$195 | \$196 |
| Demand and check deposit | 1,654,890 | 1,300,263 |
| Time deposit | 179,273 | 234,165 |
| Total | \$1,834,358 | \$1,534,624 |

2. Financial assets at fair value through other comprehensive income

| | December 31, 2023 | December 31, 2022 |
|-------------------------------------------------|-------------------|-------------------|
| Investments in equity instruments at fair value | | |
| through other comprehensive income - non- | | |
| current: | | |
| TWSE/TPEX listed shares | \$118,202 | \$86,164 |
| Unlisted shares | 44,752 | 35,502 |
| Total | \$162,954 | \$121,666 |

- (1) The Group acquired 2,000 thousand shares of Ausenior Information Co., Ltd., an unlisted company, in the first quarter of 2022 at a cost of NT\$26,000 thousand.
- (2) The Group acquired 4 thousand shares of stock dividend from retained earnings of Genesis Technology Inc., a TPEX-listed company, in the third quarter of 2022.
- (3) The Group acquired 1 thousand shares of stock dividend from retained earnings of Dimerco Data System Corporation, a TPEX-listed company, in the fourth quarter of 2022.
- (4) LOLA Technology Inc. held by The Group reduced its capital, at a ratio of 45.593%, and refunded a sum of NT\$6,611 thousand on December 6, 2022.
- (5) The Group acquired 800 thousand shares of Azalea Technology Inc., an unlisted company, in the first quarter of 2023, at a cost of NT\$8,000 thousand.
- (6) Considering the investment strategy, in the first quarter of 2023, the Group decided to sell the shares of Dimerco Data System Corporation, a TPEX listed company, which was previously classified as investments in equity instruments at fair value through

Notes to Consolidated Financial Statements of Stark Technology Inc. and Subsidiaries (Continued)

(All amounts in NTD thousands unless otherwise specified)

other comprehensive income. The disposal proceeds amounted to NT\$2,720 thousand.

Additionally, the accumulated unrealized gains of NT\$1,183 thousand at the time of disposal was reclassified from other equity to retained earnings.

- (7) The Group recognized NT\$9,700 thousand and NT\$10,560 thousand of dividend income in 2023 and 2022, respectively from investments in equity instruments at fair value through other comprehensive income held by the Group. This income is related to investments still held on the balance sheet.
- (8) None of the Group's financial assets at fair value through other comprehensive income was placed as collateral.

3. Notes receivable

| | December 31, 2023 | December 31, 2022 |
|-------------------------------------------|-------------------|-------------------|
| Notes receivable - arising from operating | | |
| activities | \$11,368 | \$10,342 |
| Less: loss provisions | | |
| Net amount | \$11,368 | \$10,342 |

None of the Group's notes receivable was placed as collateral.

The Group assesses impairment according to IFRS 9. Please see Note (VI).15 for information on loss provisions and Note (XII) for credit risk-related information.

4. Accounts receivable and installment accounts receivable

| | December 31, 2023 | December 31, 2022 |
|------------------------------------------------|-------------------|-------------------|
| Accounts receivable | \$572,609 | \$517,973 |
| Installment accounts receivable | 70,661 | 122,010 |
| Less: unrealized interest income - installment | | |
| accounts receivable | (3,835) | (5,247) |
| Subtotal (total book value) | 639,435 | 634,736 |
| Less: loss provisions | (6,006) | (4,801) |
| Total | \$633,429 | \$629,935 |

Expected recovery of installment accounts receivable is as follows:

| | December 31, 2023 | December 31, 2022 |
|---------------------|-------------------|-------------------|
| No more than 1 year | \$49,899 | \$82,403 |
| 1 to 2 years | 10,910 | 30,592 |
| 2 years and above | 9,852 | 9,015 |
| Total | \$70,661 | \$122,010 |

None of the Group's accounts receivable was placed as collateral. Credit terms granted to customers are generally 30 days to 120 days after the end of the month of acceptance inspection.

The Group had accounts receivable and installment accounts receivable balance outstanding at NT\$639,435 thousand and NT\$634,736 thousand as at December 31, 2023 and 2022, respectively. See Note (VI).15 for information on loss provisions and Note (XII) for credit risk-related information.

5. Inventories

| | December 31, 2023 | December 31, 2022 |
|-----------------------------|-------------------|-------------------|
| Net inventory - merchandise | \$2,282,771 | \$2,530,729 |

Cost of inventory, consultation, and maintenance recognized as expenses for the years ended December 31, 2023 and 2022 were NT\$5,484,495 thousand and NT\$4,994,017 thousand respectively. These amounts included NT\$598 thousand and NT\$1,227 thousand of loss on inventory devaluation and obsolescence for the years ended December 31, 2023 and 2022, respectively. As at December 31, 2023 and 2022, the Group had provisions on inventory devaluation outstanding at NT\$5,715 thousand and NT\$5,117 thousand, respectively.

None of the above inventory was pledged as collateral.

6. Prepayments

| | December 31, 2023 | December 31, 2022 |

| | | | |

Warranty

This provision was made by estimating future product warranty claims, which involved use of historical experience, the management's judgment and other known factors.

12. Post-employment benefit plans

Defined Contribution Plans

The retirement policy that the Company and domestic subsidiaries have established in accordance with the "Labor Pension Act" introduces a defined contribution plan. According to the Labor Pension Act, the Company and domestic subsidiaries are required to make monthly pension fund contributions at an amount no less than 6% of employee's monthly salary. The Company and domestic subsidiaries have established a set of employee retirement policy according to the Labor Pension Act, and has been making monthly contributions to employees' pension fund accounts held with the Bureau of Labor Insurance at 6% of salary.

Subsidiaries located in Mainland China are bound to comply with local government regulations by making contributions equal to a certain percentage of employees' gross salary to the pension fund. These contributions are paid to relevant government departments, and are saved in dedicated accounts of each employee.

Other foreign subsidiaries of the Group are bound to make pension contributions to the appropriate pension fund management institution in accordance with local laws.

The amounts of recognized pension expenses related to defined contribution plan for the years ended December 31, 2023 and 2022 were NT\$30,010 thousand and NT\$28,244 thousand respectively.

Defined Benefit Plans

The pension policy that the Company and domestic subsidiaries have established in accordance with the "Labor Standards Act" introduces a defined benefit plan. Employees' pension benefits were paid based on their years of service and their average salaries during the one month when retirement is approved. Employees are awarded 2 pension basis points for every year of service under (including) 15 years, and 1 pension basis point for every year of service above 15 years, subject to a maximum of 45 pension basis points. The Company and domestic subsidiaries make monthly pension contributions equivalent to 2% of employees' monthly gross salaries in accordance with the Labor Standards Act. These contributions are deposited into the dedicated account held with the Bank of Taiwan in the name of Labor Pension Fund Supervisory Committee. The Company and subsidiaries also evaluate the balance of the above-mentioned labor pension fund account before the end of each year. In the event that the account is estimated to be short of balance to pay the amount of estimated pension benefits to workers who are expected to meet their retirement criteria in the following year, the Company and domestic subsidiaries are required to reimburse the shortfall in one contribution before the end of March the following year.

Assets are allocated according to Ministry of Labor's Regulations for Revenues, Expenditures, Safeguard and Utilization of the Labor Retirement Fund. Fund assets are managed through a combination of self-management and mandate, using both active and passive medium-to-longer term investment strategies. The Ministry of Labor has imposed risk limits and control measures on market, credit, and liquidity risks, so that fund assets are not exposed to excessive risk while being given the flexibility to achieve target returns. Plan assets can only be allocated to investments that offer annual yields higher than the 2-year time deposit rate quoted by local banks. Shortfalls may be reimbursed by the public treasury subject to approval of the authority. Since the Company is not involved in the operation and management of the fund, it is unable to disclose the fair value of plan assets according to IAS 19 Section 142.

As at December 31, 2023, the Group expected to make contributions totaling NT\$3,170 thousand to the defined benefit plan in the next year.

As at December 31, 2023 and 2022, weighted average duration of the Group's defined benefit obligations was 4 years and 5 years, respectively.

A breakdown of defined benefit plan costs recognized in profit or loss is explained in the chart below:

| | For the year ended | For the year ended |
|-------------------------------------------------|--------------------|--------------------|
| | December 31, 2023 | December 31, 2022 |
| Service costs for the current period | \$3,192 | \$2,884 |
| Net interest on net defined benefit liabilities | | |
| (assets) | 309 | 232 |
| Total | \$3,501 | \$3,116 |

Reconciliation between present value of defined benefit obligations and fair value of plan assets:

| December 31, 2023 | December 31, 2022 | January 1, 2022 |
|-------------------|------------------------|---------------------|
| | | |
| \$161,153 | \$155,339 | \$159,873 |
| (136,593) | (128,891) | (125,636) |
| | | |
| \$24,560 | \$26,448 | \$34,237 |
| | \$161,153 (136,593) | (136,593) (128,891) |

Reconciliation of net defined benefit liabilities (assets):

| | Present value of defined benefit obligations | Fair value of plan assets | Net defined benefit liabilities (assets) |
|----------------------------------------------------------------------------------------------------------------------|----------------------------------------------|---------------------------|------------------------------------------------|
| January 1, 2022 | \$159,873 | \$(125,636) | \$34,237 |
| Service costs for the current | 2 004 | | 2 00 4 |
| period | 2,884 | - | 2,884 |
| Interest expense (income) | 1,087 | (855) | 232 |
| Subtotal | 163,844 | (126,491) | 37,353 |
| Remeasurement of defined benefit liabilities (assets): Actuarial gains or losses due | | | |
| to change of financial assumption Adjustment based on past | (4,079) | - | (4,079) |
| experience | 5,309 | (5,826) | (517) |
| Subtotal | 1,230 | (5,826) | (4,596) |
| Benefits paid | (9,735) | 9,735 | - |
| Employer's contribution | | (6,309) | (6,309) |
| December 31, 2022 Service costs for the current | 155,339 | (128,891) | 26,448 |
| period | 3,192 | - | 3,192 |
| Interest expense (income) | 1,817 | (1,508) | 309 |
| Subtotal | 160,348 | (130,399) | 29,949 |
| Remeasurement of defined benefit liabilities (assets): Actuarial gains or losses due to change of financial | | | |
| assumption Adjustment based on past | 399 | - | 399 |
| experience | 406 | (217) | 189 |
| Subtotal | 805 | (217) | 588 |
| Employer's contribution | - | (5,977) | (5,977) |
| December 31, 2023 | \$161,153 | \$(136,593) | \$24,560 |

Below are the main assumptions used for the Company's defined benefit plan:

| | December 31, 2023 | December 31, 2022 |
|-------------------------------|-------------------|-------------------|
| Discount rate | 1.14% | 1.17% |
| Expected salary increase rate | 1.00% | 1.00% |

Sensitivity analysis per major actuarial assumption:

| | For the year ended | | For the year ended | |
|---------------------------|-----------------------------------------|-----------------------------------------|-----------------------------------------|-----------------------------------------|
| | December | 31, 2023 | December 31, 2022 | |
| | Increase in defined benefit obligations | Decrease in defined benefit obligations | Increase in defined benefit obligations | Decrease in defined benefit obligations |
| 0.5% increase in the | | | | |
| discount rate | \$- | \$3,264 | \$- | \$3,777 |
| 0.5% decrease in the | | | | |
| discount rate | 3,691 | - | 4,197 | - |
| 0.5% rise in the expected | | | | |
| salary increase rate | 3,671 | - | 4,177 | - |
| 0.5% fall in the expected | | | | |
| salary increase rate | - | 3,283 | - | 3,801 |

The above-mentioned sensitivity analysis shows how reasonable changes in a single actuarial estimate (e.g.: discount rate or expected salary) may affect defined benefit obligations while other assumptions remain unchanged. However, there are limitations to this approach, as some actuarial assumptions are intercorrelated and it is rare to see only one actuarial assumption change in practice.

Methodology and assumption for sensitivity analysis of current period are consistent with those of the previous period.

13. Equity

(1) Ordinary share

The Company had authorized capital of NT\$3,400,000 thousand (20,000 thousand shares of which were reserved for the exercise of employee warrants) as at December 31, 2023 and 2022. Each share carries a face value of NT\$10 and can be issued in multiple offerings. Paid-up capital amounted to NT\$1,063,603 thousand and outstanding shares totaled 106,360 thousand on all dates. Each share is entitled to one voting right and the right to receive dividends.

(2) Capital surplus

| | December 31, 2023 | December 31, 2022 |
|--------------------------------------------|-------------------|-------------------|
| Premium on consolidation | \$148,259 | \$148,259 |
| Premium on conversion of convertible bonds | 18,255 | 18,255 |
| Total | \$166,514 | \$166,514 |

According to regulations, capital surplus cannot be used for any purpose other than reimbursing previous losses. If the Company has no cumulative losses, capital surpluses that arise from shares issued at premium and gifts received may be capitalized into share capital, up to a certain percentage of paid-in capital per year; these capital surpluses may also be distributed in cash among shareholders at the current ownership percentage.

(3) Earnings appropriation and dividend policy

According to the Articles of Incorporation, annual surpluses concluded by the Company are first subject to taxation and reimbursement of previous losses, followed by a 10% provision for legal reserve (unless legal reserves have accumulated to an amount equal to share capital). Any surpluses remaining shall then be subject to provision or reversal of special reserve, as the laws may require. The residual balance can then be added to unappropriated earnings carried from previous years and retained or distributed to shareholders as a form of profit sharing, subject to resolution in a shareholder meeting.

Shareholders' profit sharing can be paid in cash or shares; however, the cash portion shall be no less than 10% of total dividends.

The Company operates in the high-tech industry and is susceptible to the industry's enterprise life cycle. Dividends shall be allocated after taking into consideration several factors including: current and future investment environment, capital requirement, domestic/foreign competition, capital budget, shareholders' expectations, balanced dividends, and the Company's long-term financial plan. Dividend distribution plans are to be proposed by the board of directors and presented for final resolution in shareholder meeting on a yearly basis.

The Company will be required to provide additional special reserves to make up for the shortfall between the balance of special reserves provided during the first-time adoption of IFRS and the net balance of other contra equity items in years it decides to distribute available earnings. If there is any subsequent reversal of the net decrease in other equity, the reversed part of the net decrease in other equity may be reversed to the special reserve, and be distributed to investors.

In accordance with the order via a letter issued by the FSC on March 31, 2021 referenced Jin-Guan-Zheng-Fa No. 1090150022, if the International Financial Reporting Standards is adopted for the first time, for the unrealized revaluation value addition and cumulative translation adjustment (benefit) in the account which are transferred to retained earnings due to the adoption of the exemption item of IFRS 1 "First Adoption of IFRS" on the conversion date, a special reserve shall be allocated. Subsequently, when the Company uses, disposes of, or reclassifies the relevant assets, it may reverse the proportion of the original special reserve for distribution of earnings.

As at December 31, 2023, the Company had NT\$144 thousand of special reserve that were provided due to first-time adoption of IFRS.

The Company's 2023 and 2022 earnings appropriation proposal and dividends per share were proposed and resolved during the board of directors meeting held on February 29, 2024 and annual general meeting held on May 29, 2023, respectively. Details are as presented below:

| | Earnings approp | Earnings appropriation plan | | Dividends per share (NTD) | |
|-------------------|-----------------|-----------------------------|--------|---------------------------|--|
| | 2023 | 2022 | 2023 | 2022 | |
| Legal reserve | \$78,395 | \$73,885 | | | |
| Cash dividends on | | | | | |
| ordinary shares | 706,232 | 665,815 | \$6.64 | \$6.26 | |

Please refer to Note (VI).17 for the amount of employee remuneration and director remuneration recognized and the basis of estimation.

(4) <u>Non-controlling interests</u>: None.

14. Operating revenue

| | For the year ended | For the year ended |
|------------------------------------|--------------------|--------------------|
| | December 31, 2023 | December 31, 2022 |
| Revenues from sale of merchandise | \$4,835,586 | \$4,565,440 |
| Revenues from rendering of service | 2,427,738 | 2,155,573 |
| Other operating revenues | 7,538 | 7,982 |
| Total | \$7,270,862 | \$6,728,995 |

Information relating to revenue from contracts with customers for the years ended December 31, 2023 and 2022:

(1) Breakdown of revenue

| | Operating segment | | |
|--------------------------------|--------------------|--------------------|--|

| into revenue in the curre | ent period) | \$1,360,609 | | \$1,249,276 |

(3) Allocation of transaction price into unfulfilled contractual obligations

As at December 31, 2023, the Group had allocated NT\$5,624,348 thousand of transaction price into unfulfilled (including partially unfulfilled) contractual obligations; 86.45% of which are expected to be recognized as revenue in 2024, whereas the remainder will be recognized as revenue on and after 2025.

(4) Assets recognized from costs of acquiring and fulfilling customer contracts

None.

15. Expected credit impairment reversal gain

| | For the year ended | For the year ended |
|--------------------------------------------|--------------------|--------------------|
| | December 31, 2023 | December 31, 2022 |
| Expected credit impairment (loss) reversal | | |
| gain | | |
| Contract assets | \$(72) | \$105 |
| Accounts receivable | 1,021 | 2,114 |
| Installment accounts receivable | | 1,045 |
| Total | \$949 | \$3,264 |

Please see Note (XII) for credit risk-related information.

All of the Group's contract assets and receivables (including notes receivable, accounts receivable, and installment accounts receivable) have loss provisions measured based on Lifetime Expected Credit Losses. Credit loss is recognized as the difference between the book value of contract assets/accounts receivable and the present value of expected cash flow (prospective information). For short-term receivables, however, credit loss is not measured using present value difference as the effect of discounting is insignificant. Loss provisions as at December 31, 2023 and 2022 are explained below:

Contract assets and accounts receivables are divided into groups based on counterparties' credit rating, location, and industry, and a provision matrix is used to measure loss provisions. Relevant details are presented below:

| December | 31, 2023 | | | | | | |
|---------------|--------------|----------------------------------------|------------|------------|-------------|--------------------|-----------|
| Group 1 | Not past due | | | Past due | e | | |
| | (Note 1) | Within 30 days | 31-60 days | 61-90 days | 91-120 days | 121 days and above | Total |

Note 1:All notes receivable and contract assets are not past due; loss provisions are measured based on Lifetime expected credit losses.

Note 2: The Group measures loss provision for individual counterparties based on Lifetime Expected Credit Losses. Credit loss is recognized as the difference between the book value of contract assets/accounts receivable and the present value of expected cash flow.

Changes in loss provisions on contract assets, accounts receivable, and installment accounts receivable for the years ended December 31, 2023 and 2022 are explained below:

| | Contract assets | Accounts receivable | Installment accounts receivable |
|---------------------------------|-----------------|---------------------|---------------------------------|

16. Lease

(1) The Group as lessee

The Group leases several types of asset, including buildings, transportation equipment, and office equipment. Lease tenor of each contract is from 1 to 10 years.

Effects of leases on the Group's financial position, financial performance, and cash flow are explained below:

A. Amounts recognized in the balance sheet

(a) Right-of-use assets

Book value of right-of-use assets

| | December 31, 2023 | December 31, 2022 |
|--------------------------|-------------------|-------------------|
| Buildings | \$11,199 | \$12,449 |
| Transportation equipment | 16,567 | 12,434 |
| Office equipment | 1,179 | 1,135 |
| Total | \$28,945 | \$26,018 |

Right-of-use assets increased by NT\$21,806 thousand and NT\$16,734 thousand for the years ended December 31, 2023 and 2022, respectively.

(b) Lease liabilities

| | December 31, 2023 | December 31, 2022 | |
|-------------------|-------------------|-------------------|--|
| Lease liabilities | \$29,271 | \$26,370 | |
| | | | |
| Current | \$14,112 | \$10,456 | |
| Non - current | 15,159 | 15,914 | |
| Total | \$29,271 | \$26,370 | |

Please see Note (VI).18(4) - Financial cost for interest on lease liabilities for the years ended December 31, 2023 and 2022, and Note (XII).5 - Liquidity risk management for maturity analysis of lease liabilities as at December 31, 2023.

B. Amount recognized in statement of comprehensive income

Depreciation of right-of-use assets

| | For the year ended | For the year ended | |
|--------------------------|--------------------|--------------------|--|
| | December 31, 2023 | December 31, 2022 | |
| Buildings | \$10,805 | \$9,755 | |
| Transportation equipment | 7,302 | 4,041 | |
| Office equipment | 741 | 751 | |
| Total | \$18,848 | \$14,547 | |

C. Income, expenses, and losses relating to lease activities as a lessee

| | For the year ended | For the year ended |
|--------------------------|--------------------|--------------------|
| | December 31, 2023 | December 31, 2022 |
| Short-term lease expense | \$3,804 | \$4,059 |

D. Cash outflow relating to lease activities as a lessee

The Group incurred NT\$23,296 thousand and NT\$19,418 thousand of lease-related cash outflow for the years ended December 31, 2023 and 2022.

17. Summary of employee benefit, depreciation, and amortization expenses by function:

Pursuant to the Articles of Incorporation, profits concluded from a financial year are subject to employee remuneration of no less than 3% and director remuneration of no more than 5%. However, profits must first be taken to offset against cumulative losses if any. Distribution of employee remuneration mentioned above can be made in cash or in shares. This decision must be resolved in a board meeting with more than two-thirds of the board present, voted in favor by more than half of all attending directors, and subsequently

reported in shareholder meeting. Please visit the "Market Observation Post System" for more information regarding employee/director remuneration resolved in board of director meetings.

Employee remuneration and director remuneration for the year ended December 31, 2023 were estimated at NT\$67,000 thousand and NT\$5,500 thousand, respectively, based on the Company's profitability and the percentages stated in the Articles of Incorporation. Employee remuneration and director/supervisor remuneration for the year ended December 31, 2022 were estimated at NT\$67,000 thousand and NT\$3,300 thousand, respectively, based on profitability of that particular year. The abovementioned amounts were presented under salary expense at the time of estimation, and if the actual amount resolved by the board of directors differs from the estimate, the difference will be recognized as gain or loss for the next year.

The board of directors passed a resolution on February 29, 2024 to pay the 2023 employee remuneration and director remuneration at NT\$67,000 thousand and NT\$5,500 thousand, respectively, in cash; these amounts were indifferent from the expenses previously recognized in the 2023 financial statements.

The board of directors passed a resolution on February 23, 2023 to pay the 2022 employee remuneration and director/supervisor remuneration at NT\$67,000 thousand and NT\$3,300 thousand, respectively, in cash; these amounts were indifferent from the expenses previously recognized in the 2022 financial statements.

| 2015 | \$120 | \$120 | 2025 |

<u>Items not recognized as deferred income tax asset</u>

As at December 31, 2023 and 2022, the Group had NT\$4,299 thousand and NT\$3,508 thousand, respectively, that were not recognized as deferred income tax assets.

Assessment of income tax return

Assessment of income tax filings submitted by the Company and domestic subsidiaries as at December 31, 2023 is explained below:

| | Assessment of income tax return |
|-----------------------------------------|---------------------------------|
| The Company | Certified up to 2021 |
| Subsidiary - SRAIN Investment Co., Ltd. | Certified up to 2021 |
| Subsidiary - Stark Inforcom Inc. | Certified up to 2021 |

21. Earnings per share (EPS)

Amount of basic earnings per share is calculated by dividing current net income attributable to parent company's ordinary shareholders by weighted average outstanding ordinary shares for the current period.

Amount of diluted earnings per share is calculated by dividing current net income attributable to parent company's ordinary shareholders by weighted average outstanding ordinary shares for the current period, including all potential dilutive ordinary shares assuming total conversion.

| | | For the year ended | For the year ended |
|-----|-----------------------------------------------------------------------------------|--------------------|--------------------|
| | | December 31, 2023 | December 31, 2022 |
| (1) | Basic earnings per share | | |
| | Net income attributable to parent company's ordinary shareholders (NTD thousands) | \$783,241 | \$735,171 |
| | Weighted average outstanding ordinary shares for basic earnings per share | | |
| | (shares) | 106,360,291 | 106,360,291 |
| | Basic earnings per share (NTD) | \$7.36 | \$6.91 |
| (2) | Diluted earnings per share | | |
| | Net income attributable to parent company's ordinary shareholders (NTD thousands) | \$783,241 | \$735,171 |
| | Weighted average outstanding ordinary shares for basic earnings per share | | |
| | (shares) | 106,360,291 | 106,360,291 |

| Dilutive effect: | | |
|---------------------------------------------|-------------|-------------|
| Employee remuneration (shares) | 673,742 | 851,211 |
| Weighted average outstanding ordinary | | |
| shares after adjustment for dilutive effect | | |
| (shares) | 107,034,033 | 107,211,502 |
| Diluted earnings per share (NTD) | \$7.32 | \$6.86 |

There had been no other transaction that significantly changed the end of period number of outstanding ordinary shares or potential ordinary shares after the reporting date up until the publication date of financial statements.

(VII). Related party transactions

Compensation for key management of the Group

| | For the year ended | For the year ended |
|------------------------------------|--------------------|--------------------|
| | December 31, 2023 | December 31, 2022 |
| Short-term employee benefits | \$115,982 | \$92,144 |
| Post-employment benefits - pension | 2,848 | 8,233 |
| Total | \$118,830 | \$100,377 |

(VIII). Pledged assets

The Group had placed the following assets as collaterals:

| | Book | | |
|--------------------------------------|-------------------|-------------------|--------------------------|
| Item | December 31, 2023 | December 31, 2022 | Details of debts secured |
| Other financial assets - current | \$10,421 | \$15,372 | Performance guarantee |
| Other financial assets - non-current | 8,507 | 4,796 | Performance guarantee |
| Total | \$18,928 | \$20,168 | |

(IX). Significant contingent liabilities and unrecognized contract commitments

Unrecognized contract commitments

1. The Company had engaged financial institutions to provide NT\$127,772 thousand of performance and customs guarantee for various projects.

2. The Company had issued NT\$14,535 thousand of guaranteed notes to customers and banks to secure sales and borrowing limits.

Contingency

1. The company received a criminal incidental civil lawsuit complaint related to the criminal case of the company's employees violating the Securities and Exchange Act, filed by the Taiwan Taipei District Court. FUJIFILM Business Innovation Taiwan Co., Ltd. (hereinafter referred to as Fujifilm) filed a criminal incidental civil lawsuit against other companies, individuals, the Company and the Company's vice president surnamed Gao, a total of 15 defendants, requesting if one of the 15 defendants pays all or part of the damages, the other defendants are exempted from the obligation to pay within the scope of the payment.

For the above-mentioned criminal incidental civil lawsuit filed by Fujifilm against the Company, this is a civil lawsuit incidental to a criminal case. Typically, it will be transferred to the civil court after the first-instance criminal judgment, and there will be no civil procedure for the time being.

2. The Company received a complaint of civil lawsuit filed by the Taiwan Taipei District Court. Fujifilm filed a civil lawsuit against other companies, individuals, the Company and the Company's vice president surnamed Gao, a total of 18 defendants, requesting if one of the 18 defendants pays all or part of the damages, the other defendants are exempted from the obligation to pay within the scope of the payment. On November 27, 2023, both parties agreed in court to suspend the litigation proceedings. From the agreed suspension date, if no further legal action is taken within four months, it will be considered as withdrawal of the lawsuit or appeal.

For the above-mentioned civil lawsuit filed by Fujifilm against the Company, the Company had appointed a lawyer to handle it.

As at December 31, 2023, the Company has assessed that the aforementioned events will not have a significant impact on the Company's current operations.

(X). Losses from Major Disasters

None.

(XI). Significant Subsequent Events

None.

(XII). Others

| Total | \$1,408,804 | \$1,542,851 |

2. Purpose and policy of financial risk management

The Group has set its financial risk management goals to primarily manage market risks, credit risks, and liquidity risks relating to operating activities. The abovementioned risks are identified, measured, and managed according to the Group's policies and risk preference.

The Group has implemented appropriate policies, procedures, and internal controls for the management of financial risks mentioned above. All important financial activities are subject to review by the board of directors and audit committee in accordance with rules and the internal control system. The Group is required to duly comply with its financial risk management rules when carrying out financial management activities.

3. Market risk

Changes in the market price of financial instruments is the type of market risk that the Group is most concerned with. Market risk may cause fluctuation in the fair value or cash flow of financial instruments, and mainly includes exchange rate risk, interest rate risk, and other price risk.

In practice, however, it is extremely rare to see only one risk variable changing at one time. Although risk variables tend to be correlated to some degree, the sensitivity analysis below has not taken into consideration the inter-correlation of risk variables.

Exchange rate risk

The Group's exchange rate risk exposure is mainly associated with operating activities (when the currency of income or expense is different from the Group's functional currency) and net investments in foreign operations.

Some of the Group's foreign currency receivables and foreign currency payables are denominated in the same currencies, which create natural hedge to some extent. However, the Group did not adopt hedge accounting as natural hedge does not conform with the requirements for hedge accounting. Meanwhile, net investments in foreign operations represent strategic investments, therefore the Group did not hedge this exposure.

Sensitivity analysis for exchange rate risk is conducted on monetary items denominated in key foreign currencies as at the balance sheet date, and the analysis evaluates how a strengthening/weakening of foreign currency affects the Group's profits and equity.

Exchange rate risks of the Group are mainly attributed to the volatility of USD and RMB currencies. Sensitivity analysis for the two currencies is provided below:

If NTD strengthened/weakened against USD by 1%, profits for the years ended December 31, 2023 and 2022 would have decreased/increased by NT\$219 thousand and by NT\$25 thousand, respectively, whereas equity would have decreased/increased NT\$64 thousand and NT\$137 thousand, respectively.

If NTD strengthened/weakened against RMB by 1%, profits for the years ended December 31, 2023 and 2022 would have decreased/increased by NT\$299 thousand and NT\$439 thousand, respectively, and there would be no effect whatsoever on equity.

Interest rate risk

Interest rate risk refers to fluctuations in the fair value or future cash flow of a financial instrument due to changes in market interest rate. The Group's exposure to interest rate risk arises mainly from loans borrowed at floating rate. However, given that the Group currently has no such loan outstanding, it is not exposed to any material interest rate risk.

Equity price risk

The Group holds TWSE/TPEX listed as well as unlisted equity securities; the fair value of investments may be affected by uncertainties associated with the future value. All TWSE/TPEX listed and unlisted equity securities held by the Group are classified as equity instruments at fair value through other comprehensive income. The Group manages equity price risk of equity securities through diversified investment and by setting investment limits on single and a portfolio of instruments. Information on portfolio of equity securities has to be provided to the Group's management on a regular basis; the board of directors is required to verify and approve all decisions concerning investment of equity securities.

A 10% rise/fall in the price of TWSE/TPEX listed shares held as investments in equity instruments at fair value through other comprehensive income would have affected the Group's equity by NT\$11,820 thousand and NT\$8,616 thousand for the years ended December 31, 2023 and 2022, respectively.

4. Credit risk management

Credit risk refers to the possibility of financial losses suffered due to counterparties becoming unable to fulfill contractual obligations. The Group's credit risk exposure mainly arises from operating activities (primarily accounts receivable and notes receivable) and financing activities (primarily bank deposits and financial instruments).

All departments of the Group manage credit risks according to prevailing policies, procedures, and controls. Counterparty credit risk is evaluated after taking into consideration each counterparty's financial position, external credit rating, historical transactions, the current economic environment, and the Group's internal rating standards, etc. The Group uses credit enhancement tools (such as advanced receipt and insurance) at appropriate times to minimize credit risk of specific counterparties.

The Group's top 10 customers accounted for 21% and 20% of total contract assets and accounts receivable balance as at December 31, 2023 and 2022, respectively. Judging by the above, there was no concentration of credit risk in the Group's contract assets and accounts receivable.

The Finance Department manages credit risk of bank deposits and other financial instruments according to group policies. All counterparties of the Group are approved according to internal control procedures, and consist entirely of reputable banks, investment-grade financial institutions, companies, and government agencies, hence no major credit risk exists.

The Group assesses expected credit losses according to IFRS 9. Information relating to credit risk assessment is presented below:

| | | | Total book value | | | |
|-------------------|-----------|--------------------------|-------------------|-------------------|--|--|
| | | Method of measuring | | | | |
| Credit risk grade | Indicator | expected credit loss | December 31, 2023 | December 31, 2022 | | |
| Simplified | | Lifetime Expected Credit | | | | |
| Approach (Note) | (Note) | Losses | \$873,175 | \$897,890 | | |

Note: The Group adopts the Simplified Approach (loss provision is measured based on Lifetime Expected Credit Losses); the assessment covers contract assets, notes receivable, accounts receivable, and installment accounts receivable.

5. Liquidity risk management

The Group uses cash and cash equivalents, marketable securities, bank loans, leases, and contracts to maintain financial flexibility.

The following table shows maturity of financial liabilities as stated in contract terms and conditions. The dates represent the earliest times at which the Group may be required to make repayments, whereas the amounts are undiscounted and include agreed interests. Undiscounted amounts of floating interest cash flow are estimated using yield curve as at the balance sheet date.

Non-derivative financial liabilities

| | Less than 1 year | 2 to 3 years | 4 to 5 years | More than 5 years | Total |
|-------------------|------------------|--------------|--------------|-------------------|-------------|
| December 31, 2023 | | | | | |
| Payables | \$1,372,107 | \$- | \$- | \$- | \$1,372,107 |
| Lease liabilities | 14,585 | 13,807 | 1,641 | - | 30,033 |
| | | | | | |
| December 31, 2022 | | | | | |
| Short-term loans | \$150,708 | \$- | \$- | \$- | \$150,708 |

| Lease liabilities | 10,942 | 13,440 | 2,844 | - | 27,226 |

6. Reconciliation of liabilities relating to financing activities

Reconciliation of liabilities for the year ended December 31, 2023:

| | Short-term loans | Guarantee deposits | Lease liabilities | Total |
|-------------------------|------------------|--------------------|-------------------|-----------|
| January 1, 2023 | \$150,000 | \$5,983 | \$26,370 | \$182,353 |
| Non - cash movement | - | - | 22,424 | 22,424 |
| Cash flow | (150,000) | 1,443 | (19,492) | (168,049) |
| Exchange rate variation | | | (31) | (31) |
| December 31, 2023 | \$- | \$7,426 | \$29,271 | \$36,697 |

Reconciliation of liabilities for the year ended December 31, 2022:

| | Short-term loans | Guarantee deposits | Lease liabilities | Total |
|-------------------------|------------------|--------------------|-------------------|-----------|
| January 1, 2022 | \$70,000 | \$3,138 | \$24,444 | \$97,582 |
| Non - cash movement | - | - | 17,253 | 17,253 |
| Cash flow | 80,000 | 2,845 | (15,359) | 67,486 |
| Effect of exchange rate | | | | |
| changes | | | 32 | 32 |
| December 31, 2022 | \$150,000 | \$5,983 | \$26,370 | \$182,353 |

7. Fair value of financial instruments

(1) Fair value assessment techniques and assumptions

Fair value refers to the price that market participants are able to receive for selling an asset, or the price that has to be paid to transfer a liability, in an orderly transaction on the measurement date. The Group has adopted the following techniques and assumptions when measuring and disclosing fair values of financial assets and liabilities:

- A. Book value of cash and cash equivalents, receivables, payables, and other current liabilities closely resemble their fair value due to their short maturity.
- B. Financial assets and liabilities that are traded on active markets at standard terms and conditions shall have fair value determined by market quotation (e.g. TWSE/TPEX listed shares, beneficiary certificates, and bonds).
- C. Equity instruments without active market (e.g. privately placed shares of TWSE/TPEX listed companies, shares of unlisted public and private companies without active market) shall have fair value estimated using the market approach, which infers fair values from transaction price or other relevant information (such as discount for lack of liquidity, P/E and P/B ratios of similar companies etc.) of same or comparable equity instruments.

D. For debt instruments without quotation in active market, bank loans, and other noncurrent liabilities, fair value is determined by counterparty's quotation or through the use of valuation technique. The valuation technique takes a discounted cash flow approach, and assumptions such as interest rate and discount rate are established in reference to instruments of similar nature.

(2) Fair value of financial instruments carried at cost after amortization

Book value of financial assets and liabilities carried at amortized costs closely resemble their fair value.

(3) Fair value hierarchy for financial instruments

See Note (XII).8 for information relating to fair value hierarchy for financial instruments.

8. Fair value hierarchy

(1) <u>Definition of fair value hierarchy</u>

For all assets and liabilities measured or disclosed at fair value, fair value measurement is categorized in their entirety in the level of the lowest level input that is significant to the entire measurement. The different levels of inputs used are explained below:

Level 1 input: Quotations that can be obtained from an active market (unadjusted) on

the measurement date for asset or liability of equivalent nature.

Level 2 input: Inputs that can be observed directly or indirectly on an asset or

liability, except for quotations covered in level 1 input.

Level 3 input: Inputs that cannot be observed for an asset or liability.

Assets and liabilities that are recognized on financial statements on a recurring basis shall have classification reassessed on each balance sheet date to determine if transfer of fair value hierarchy has taken place.

(2) <u>Information on fair value hierarchy</u>

The Company did not have any asset that is measured at fair value on a non-recurring basis. Hierarchy of assets and liabilities with recurring fair value measurement is explained below:

| December 31, 2023: | | | | |
|---------------------------------|-----------|---------|----------|-----------|
| | Level 1 | Level 2 | Level 3 | Total |
| Financial assets at fair value: | | | | |
| Financial assets at fair value | | | | |
| through other comprehensive | | | | |
| income | | | | |
| Stock | \$118,202 | \$- | \$44,752 | \$162,954 |
| December 31, 2022: | | | | |
| | Level 1 | Level 2 | Level 3 | Total |
| Financial assets at fair value: | | | | |
| Financial assets at fair value | | | | |
| through other comprehensive | | | | |
| income | | | | |
| Stock | \$86,164 | \$- | \$35,502 | \$121,666 |

Transfer of fair value input between level 1 and level 2

There had been no transfer of fair value input between level 1 and level 2 for the years ended December 31, 2023 and 2022 that involved assets or liabilities with fair value measured on a recurring basis.

Transfer of level 3 input for recurring fair value measurements

There had been no transfer of level 3 input that involved assets or liabilities with recurring fair value measurement.

<u>Information on the use of significant unobservable inputs in level 3 fair value</u> measurement

The following significant unobservable inputs were used for level 3 measurement of assets with recurring fair value measurement:

December 31, 2023:

| | Valuation technique | Significant unobservable input | _ | Relationship between input and fair value | Sensitivity analysis on relationship between input and fair value |
|-------------------------------------------------------------------------------------------|---------------------|--------------------------------|--------------------------|---------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------|
| Financial assets: Financial assets at fair value through other comprehensive income Stock | Asset | Discount for lack of | 20% | The higher the lack of | If P/E ratio of a similar share rises |
| Stock | Approach | liquidity | 20% | liquidity, the lower the fair value estimate | (falls) by 10%, the Group's profits would increase (decrease) by NT\$4,475 thousand. |
| | Decemb | per 31, 2022: | | | |
| | Valuation technique | Significant unobservable input | Quantitative information | Relationship between input and fair value | Sensitivity analysis on relationship between input and fair value |
| Financial assets: Financial assets at fair value through other comprehensive income | | | | | |
| Stock | Asset Approach | Discount for lack of liquidity | 20% | The higher the lack of liquidity, the lower the fair value estimate | If P/E ratio of a similar share rises (falls) by 10%, the Group's profits would increase (decrease) by NT\$16 thousand. |

(3) Mandatory disclosure of fair value hierarchy for items not measured at fair value: None.

9. Significant foreign currency-denominated financial assets and liabilities

The Group had the following significant foreign currency-denominated financial assets and liabilities:

Unit: thousand

| | Dece | mber 31, 2023 | | December 31, 2022 | | | |
|-----------------------|------------------|---------------|----------|-------------------|---------------|-----------|--|
| | Foreign currency | Exchange rate | NTD | Foreign currency | Exchange rate | NTD | |
| Financial assets | | | | | | | |
| Monetary | | | | | | | |
| items: | | | | | | | |
| USD | \$1,802 | 30.63 | \$55,197 | \$13,895 | 30.67 | \$426,173 | |
| CNY (RMB) | 63,368 | 4.296 | 272,227 | 93,001 | 4.381 | 407,435 | |
| JPY | 2 | 0.2153 | 1 | 647 | 0.2299 | 149 | |
| SGD | 62 | 23.18 | 1,444 | 51 | 22.75 | 1,164 | |
| Financial liabilities | | | | | | | |
| Monetary | | | | | | | |
| items: | | | | | | | |
| USD | \$1,163 | 30.63 | \$35,634 | \$234 | 30.67 | \$7,176 | |
| CNY (RMB) | 1,553 | 4.296 | 6,673 | 4,946 | 4.381 | 21,669 | |
| SGD | 58 | 23.18 | 1,350 | _ | 22.75 | | |

Due to the broad diversity of functional currencies used for transactions by members of the Group, the Group was unable to disclose exchange gains/losses on monetary financial assets and liabilities separately for each significant foreign currency. The Group incurred NT\$200 thousand and NT\$29,381 thousand of gains on currency exchange for the years ended December 31, 2023 and 2022, respectively.

10. Capital management

The primary goals of the Group's capital management are to maintain robust credit rating and sound capital ratios in ways that support business operation and maximization of shareholders' equity. The Group manages and adjusts capital structure based on changes in economic circumstances. The Group maintains and adjusts capital structure through: adjustment of dividend payment, refund of share capital, or issuance of new shares.

(XIII). Other Disclosures

- 1. <u>Information related to significant transactions:</u>
 - (1) Loans to external parties: None.
 - (2) Endorsements/guarantees provided for others:

| Stark | Serial No. | Name of the company providing an endorsement/ guarantee | Name of the company | /guaranteed Relationship (Note 2) | Limits on endorsement/ guarantee amount provided to a single entity (Note 3) | Maximum balance for the period (Note 4) | Outstanding endorsement/ guarantee amount at the end of the period (Note 5) | Actual amount drawn down (Note 6) | collateral | Cumulative amount of endorsement / guarantee as a percentage of net equity stated in the latest financial | allowed | Provision of endorsement/ guarantee by parent company to subsidiary (Note 7) | Subsidiary's guarantee/ endorsement to parent company (Note 7) | Provision of endorsement/ guarantee to the party in Mainland China (Note 7) |

| | 1 | Inforcom | The Company | 4 | , | \$214 | | \$214 | - | | \$480,889 | | Y | - |

Note 1: Explanation to the serial number column:

- 1. 0 for the Company.
- 2. Investees are numbered in sequential order starting from 1; serial number should be consistent for the same company.

Note 2: The relationship between endorsement/guarantee providers and guaranteed parties are classified as follows:

- 1. Business that the Company has business dealing with.
- 2. Business in which the Company holds more than 50% direct or indirect voting interest.
- 3. Business that holds more than 50% direct or indirect voting interest in the Company.
- 4. Business in which the Company holds more than 90% direct or indirect voting rights.

- 5. Peer or partner of a construction contract that the Company is in need to provide cross guarantees for.
- 6. Investee of a joint investment arrangement for which the Company and other shareholders have issued endorsements/guarantees proportionate to ownership interest.
- 7. Peer of a property pre-sale contract for which the Company has issued performance guarantee in accordance with the Consumer Protection Act.
- Note 3: According to subsidiaries' endorsement and guarantee procedures, endorsements/guarantees to a single business shall not exceed 50% of current net equity; total endorsements/guarantees to external parties shall not exceed 100% of current net equity. According to parent company's endorsement and guarantee procedures, endorsements/guarantees to any single subsidiary in which the Company holds more than 90% ownership interest shall not exceed 50% of net equity shown in the Company's latest financial statements, whereas endorsements/guarantees to other external parties shall not exceed 10% of the Company's net equity per entity or 50% of the Company's net equity on an aggregate basis, as shown in the latest financial statements.
- Note 4: Represents the maximum balance of endorsement/guarantee during the year.
- Note 5: Represents board of directors approved amount. If the Chairman has been authorized by the board of directors to make decisions according to Subparagraph 8, Article 12 of Regulations Governing Loaning of Funds and Making of Endorsements/Guarantees by Public Companies, the column shall represent Chairman-approved amount.
- Note 6: Represents the actual amount utilized by the guaranteed/endorsed within the endorsement/guarantee limit.
- Note 7: Specify "Y" only for: endorsement/guarantee from a TWSE/TPEX listed parent to a subsidiary, endorsement/guarantee from a subsidiary to a TWSE/TPEX listed parent, or endorsement/guarantee to the Mainland China area.

(3) Holding of marketable securities at the end of the period (not including investment in subsidiaries, associates and joint ventures):

- Note 1: Business dealings between the parent company and subsidiaries are indicated in the serial number column. The numbering rule is explained below:
 - 1. 0 for parent company.
 - 2. Each subsidiary is numbered in sequential order starting from 1.
- Note 2: Related party transactions are distinguished into one of three categories, as shown below:
 - 1. Parent to subsidiary.
 - 2. Subsidiary to parent.
 - 3. Subsidiary to subsidiary.
- Note 3: Calculation for business dealings as a percentage of total consolidated revenues or total assets is explained as follows: for balance sheet items, percentage of period-end balance is calculated relative to consolidated total assets; for profit or loss items, percentage of end-of-period cumulative amount is calculated relative to consolidated total revenues.
- Note 4: Key transactions presented in this chart are determined by the Company based on principles of materiality.

2. <u>Information on business investments:</u>

4. Information on major shareholders: Disclosure requirements not met.

(XIV). <u>Segment Information</u>

The Group generates revenues mainly from distribution and maintenance of computers and peripherals; research, design, development, and sale of computer software/hardware, and computer system design. The Group's decision makers evaluate performance of the company and allocate resources accordingly. The Group has consolidated all of its operations into one single reporting segment due to the fact that they share similar economic characteristics and exhibit comparable long-term financial performance. Segment information is prepared using the same basis and significant accounting policies stated in Note (IV).

1. Regional information

(1) Income from external customers:

| | For the year ended | For the year ended | |
|----------------|--------------------|--------------------|--|
| | December 31, 2023 | December 31, 2022 | |
| Taiwan | \$7,063,611 | \$6,510,132 | |
| Mainland China | 121,473 | 175,276 | |
| Others | 85,778 | 43,587 | |
| Total | \$7,270,862 | \$6,728,995 | |

Income is classified based on customers' country of domicile.

(2) Non-current assets:

| | December 31, 2023 | December 31, 2022 |
|----------------|-------------------|-------------------|
| Taiwan | \$527,819 | \$470,078 |
| Mainland China | 1,467 | 680 |
| Total | \$529,286 | \$470,758 |

2. Major customers:

Customer accounted for at least 10% of the Group's operating revenue for the years ended December 31, 2023 and 2022 are explained below:

| | For the year ended | For the year ended | | |
|------------|--------------------|--------------------|--|--|
| | December 31, 2023 | December 31, 2022 | | |
| Customer A | \$800,276 | \$286,315 | | |
| Customer B | 649,401 | 704,680 | | |
